SINCE 2016

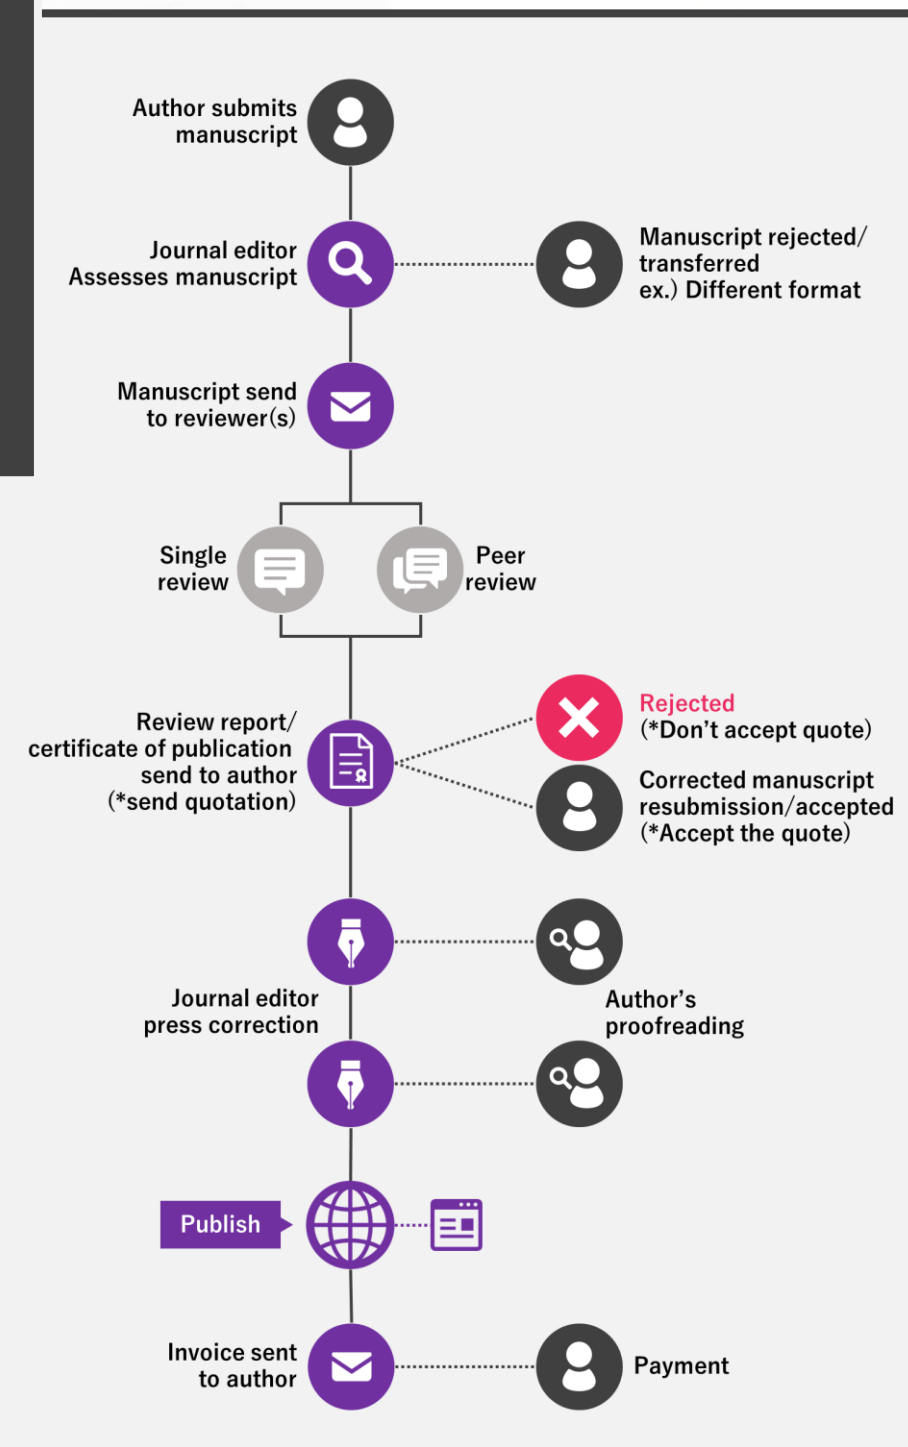

The Underground by Mamiko OTA(2020)

At the Asian Society of Human Services, We set up a place to learn regardless of the presence or absence of obstacles, and define equal and comprehensive education to be done there as Inclusive Education.

Research in the field of Inclusive Education is a field that is internationally valid if the method is scientific, and it is expected that it will develop more by trial of multi-occupational collaboration. Promotion of "Evidence Based Inclusive Education" is particularly required.

Therefore, through this scientific research and practical activities on Inclusive Education, for the purpose of contributing to the progress and development of Inclusive Education in Asia, including Japan, we will publish a third specialized research journal as a conference here.
