# TOTAL REHABILITATION RESEARCH

Online ISSN : 2189-4957

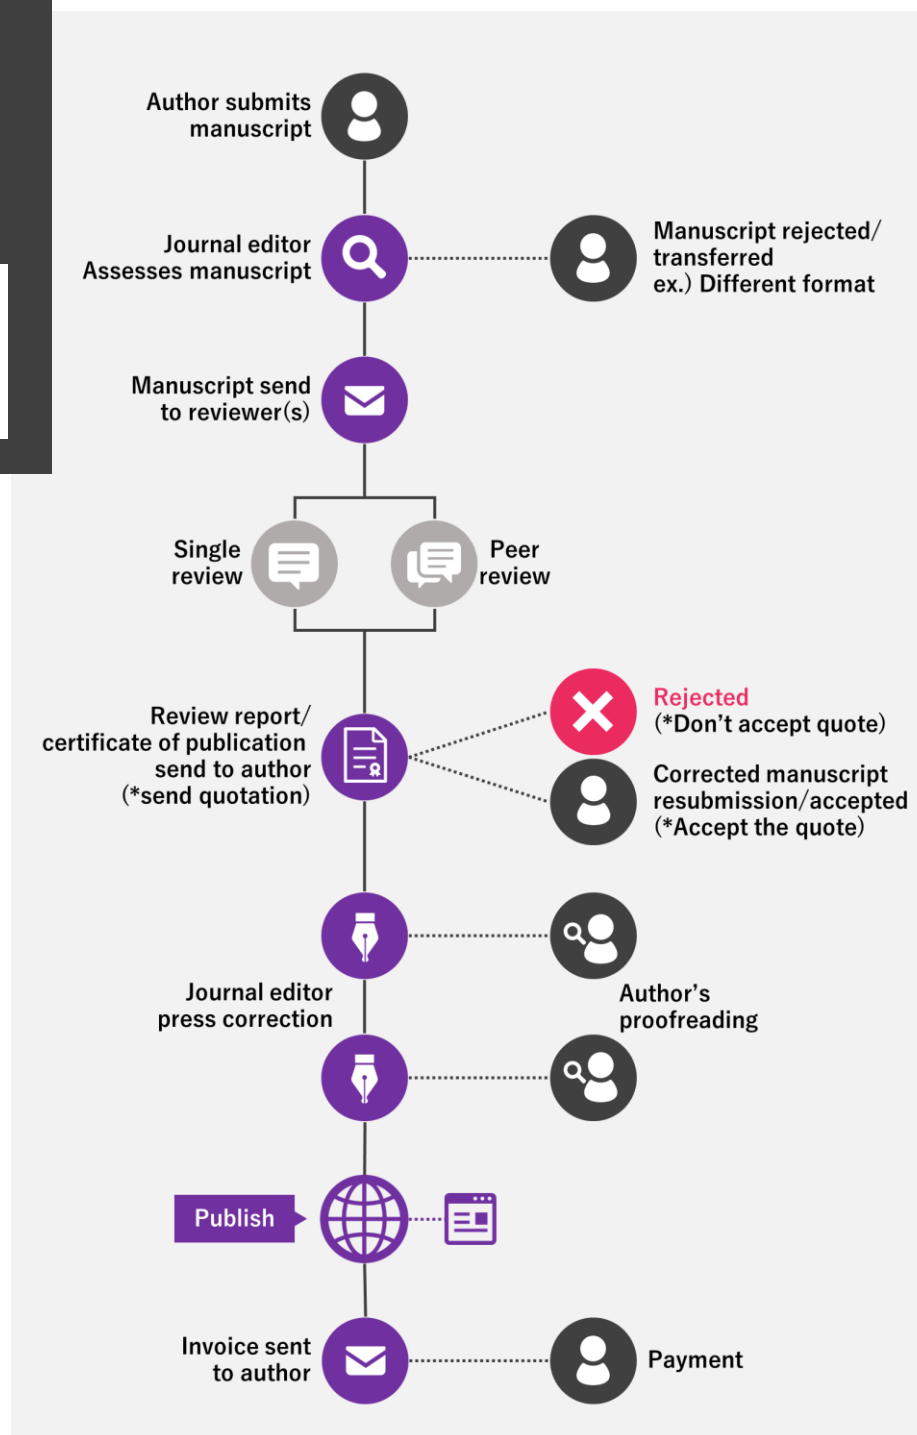

SINCE 2014

Modern Times by Yungdoo YOON(2014)

Rehabilitation is the comprehensive concept that embraces not only medical rehabilitation but also special needs education and vocational, social and psychological rehabilitations. Therefore, Asian Society of Human Services adopts the concept of Total Rehabilitation, which includes all those five scopes.

Total Rehabilitation that employs scientific research methods and has been acknowledged internationally is expected to be developed based on the convergent approach. In this context, Asian Society of Human Services begins the publication of Total Rehabilitation Research as the second journal of our Society in order to contribute for the advancement and development of Total Rehabilitation in Asia as well as Japan via the scientific researches and practices.
